LAB Task 6A)

Question No: 02

A* Graph:= UCS Graph

plain Text:=

[A → B → C → F → G → E → D]

A → B = 2

A → C = 3

B → D = 3

B → E = 2

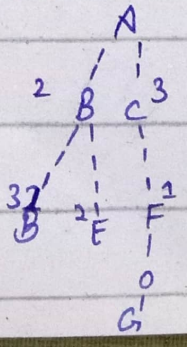

C → F = 1

F → G = 0

The shortest path to G is:= A → C → F → G

Total Cost:= 3 + 1 + 0 = 4

UCS plain Text:=

Date: Day:

[A → B → C → E → F → G → D]

⟹ Both Graphs have same optimal path.

Total Cost = ⟹ 3 + 1 + 0 = 4

The shortest path is :- A → C → F → G.
